

KEYSHOCK

Equipment Impact Alarm

KEYSHOCK is an invaluable, easy-to-use system that protects your equipment from abusive operators. The system activates when an impact exceeds a predetermined level, alerting management to abusive impacts and improper handling. Comprehensive software puts you in control by allowing management to set sensitivity parameters, program alarm preferences.

Features

- Alerts to vehicle impacts and abusive handling
- Absence of battery power does not reset alarm (only management can reset after alarm is initiated)
- Easy-to-install on any make or model vehicle
- Highly customizable alarms
- Must be re-initialized after impact by management

Problems Solved

Vehicle Damage: Alerts management to vehicle abuse

Operator Accountability: Provides management with operating reporting

Impact Accuracy: Impact levels can be predefined
